### May

First-ever Summer PATCH Youth Advocacy Fellowship launches in five Wisconsin regions

### June

Welcome PATCH Coulee Region Wisconsin!

Welcome PATCH Central Wisconsin!

The Core PATCH Package provides communities the training, support, resources, and materials to become a PATCH Site. A PATCH Site has a Teen Educator team that facilitates the "PATCH for Providers" and "PATCH for Teens: Peer-to-Peer" workshops, and advocates for local change. In 2017/2018, we launched FOUR new PATCH Sites, in addition to the THREE existing sites that fully implemented with these outcomes:

- 30** Teen Educators trained
- 23** PATCH for Providers workshops facilitated
- 899** Health Care Professionals reached
- 43** PATCH for Teens Workshops facilitated
- 851** Youth reached

Explore more outcomes in our full 2017/2018 PATCH Impact Report at [www.patchprogram.org](http://www.patchprogram.org).

The PATCH for Teens: Classroom Edition provides school health teachers, health-related professionals, youth workers, and other adults the materials and resources needed to teach young people about their health care rights and responsibilities.

**5** Different states now have licensed facilitators for the PATCH for Teens: Classroom Edition

The PATCH Advocacy Fellowship is an opportunity for Wisconsin youth, ages 12-21, to grow as leaders and activists. They are empowered to be a part of adolescent health conversations at community and state levels, providing advice and input on goals and decisions that impact youth. In 2017/2018:

- 12** Youth hired as part of the Full-Year Fellowship
- 47** Youth hired as part of the Summer Fellowship

We're always innovating at PATCH! This year, we've been working on a new PATCH for Parents Toolkit. Watch for the release of this anticipated product in 2019! Visit [www.patchprogram.org](http://www.patchprogram.org) for updates on all of our innovative efforts.

We are proud to share evidence and lessons learned from the PATCH approach to positive youth development and youth/adult partnerships through various publications, presentations, and at conferences nationwide. Keep tabs on where to find us at [www.patchprogram.org](http://www.patchprogram.org).

PATCH offers programs, curricula, materials, and resources to help empower youth voices, engage youth in conversations of health care quality, and equip youth to help improve the health and well-being of their generation.
